### SOE 2023 European Society of Ophthalmology

15-17 June 2023, Prague, Czech Republic

#### S65 Lens Based and Kerato Refractive Surgery in the New Age

In today's world, ophthalmology techniques and technology are ever evolving. In daily ophthalmology practice, challenging cases are constantly increasing. This coupled with highly demanding patients present a unique situation for ophthalmologists. At the International Society of Refractive Surgery (ISRS) session, we will discuss recent trends and updates in various areas of ophthalmology, including cataract, cornea, and refractive surgery, to help manage different cases and offer treatment modalities to address difficult cases.

Moderator: Tamer O Gamaly (United Arab Emirates)  
Moderator: Anas A Anbari (United States)  
Moderator: Ashraf Armia Balamoun (Egypt)

Session	Speaker	Time
